OUTLOOK AND STRATEGY

September inflation rate eased to 4.8%, slightly lower than the 4.9% recorded in August 2021 but higher than September 2020 as transport index increased at a slower pace at 5.25% versus to 7.2% in August 2021. The year to date average inflation rate of 4.5% is higher than the government's target of 2% to 4% for 2021.

As of September 2021, the yields for the 3-month and 6-month T-bills averaged at 1.067% and 1.396% respectively, which are lower than the previous quarter. One-year T-bills decreased at 1.609%. Meanwhile, private bank 30 days regular deposit rates averaged at 0.221%.

Returns on time deposits and special savings deposits remain higher than regular savings deposit, which is beneficial to the investment strategy of the fund. The fund will continue to invest primarily in short term placements within a 30 to 90 day range.

**Starting January 1, 2020, the average 30-day time/special savings rate of the top 3 private universal banks, Land Bank of the Philippines and Development Bank of the Philippines replaces the Bloomberg Philippines 30-day Special Savings Rate General Average as benchmark.*
