QUERY/CONCERN	CLARIFICATION
<p>Partition with Provision of Window & Holes at the Sidings Intended for the Plywood Extension Partition <i>(with submitted sample images and details)</i>.</p>	<p>The project being proposed by the supplier made use of acrylic materials fabricated as partitions with no texts, colors, nor shapes of various designs.</p> <p>Since the requirements are acrylic signages to be displayed in conspicuous places all over the branch premises, the TWG deemed it necessary to strictly consider previous projects of similar nature as described above.</p>
<p>Request for approval of the following as Single Largest Completed Contract for Lot 3 (Wooden Items):</p> <p>Supply, Delivery and Assembly of One (1) Lot Brand New Furniture, Fixtures, and Accessories for Various National Child Development Center (NCDC) of the Early Childhood Care and Development Council (ECCDC) <i>(with submitted sample images and details)</i>.</p>	<p>The similar contract is found acceptable for consideration of the TWG.</p> <p>The definition of similar contract is also revised from “wooden materials in the form of poster board or flagpole or guard’s podium” to <u>“fabrication of items and/or furniture using wood and/or wooden components as main material utilized within an office/school, household, hospital or other space suitable for living or working”</u>.</p> <p>Please see REVISED FORM 8-C for the Revised Technical Specifications for Lot No. 3: Wooden Items and ANNEX “A” for the Revised Checklist of Requirements attached in this Supplemental Bid Bulletin No. 1 dated 20 July 2022.</p>
<p>Request for approval of the following as Single Largest Completed Contract for Lot 3 (Wooden Items):</p> <p>Supply and Installation of AERA wave poles <i>(with submitted sample images and details)</i>.</p>	<p>The project is considered not similar in nature.</p> <p>The poster module, guard’s podium, and flagpole require a more meticulous process of production in order to form the proper dimension, edges, shapes and fabricate the items in fine finish.</p> <p>It is the consensus of the TWG that previous experience or knowledge on woodwork projects are very important to the standardization project requiring certain amount of craftsmanship, technical know-how, and skill in order to build the “woodworks”. While the wave poles made use of wooden materials, the “Aera wave pole project” was not found to have been crafted the way a poster module, guard’s podium, and flagpole will be fabricated.</p> <p>Moreover, the items to be produced are display items in every DBP branch, thus, previous projects of similar nature are very critical consideration.</p>
