### OUTLOOK AND STRATEGY

December inflation rate inched up to 8.1%, higher than the 8.0% recorded in November 2022 and 3.1% in December 2021. This was driven mainly by continuous increase in the prices of food, non-alcoholic beverages followed by restaurants and accommodations and utility. The average inflation rate for January to December 2022 posted at 5.8%, versus the 3.9% recorded for the same period last year.

As of December 2022, the yields for the 3-month, 6-month, and one-year T-bills averaged at 4.260%, 4.782%, and 5.057%, respectively, which are higher than the previous quarter. Meanwhile, private bank 30 days regular deposit rates averaged at 0.263%.

Returns on time deposits and special savings deposits remain higher than regular savings deposit, which is beneficial to the investment strategy of the fund. The fund will continue to invest primarily in short-term placements within a 30 to 90-day range.

\*Starting January 1, 2020, the average 30-day time/special savings rate of the top 3 private universal banks, Land Bank of the Philippines and Development Bank of the Philippines replaces the Bloomberg Philippines 30-day Special Savings Rate General Average as benchmark.
